ing - noise, good food, a jam-pack

crowd, and a show 21/2 hours long. Saratoga, like any of the rural high schools, has more capacity in its gymnasium than Hope has; and so the folks turn out full of confidence they'll be able to get a satisfactory seat. It's our knowledge of this that spurs Hope's drive to try to get the Livestock Show Coliseum outfitted for basketball before another season begins.

Even so, however, Hope will be several seasons building up the mass enthusiasm which has been spontaneous with the RFD schools for years. They've a long start on us in the art of staging winter sports. Take Saturday night's show as an example. No Saratoga team was on the floor. The Hope girls played the Nashville girls; and the Blevins boys played the Fouke boys. But Saratoga filled the

stands just the same. Our congratulations to Supt. M. H. Peebles and a fine community party.

There's humor in the fact that the official roster posted over my desk shows that of the 135 members of the Arkansas legislature 49 are lawyers — but not so funny is the memorandum given me by an insurance friend on the number of bills that have been introduced in the present session to wreck work-

men's compensation. As you may recall, the people spent years trying to get a workmen's compensation law enacted over the opposition of those lawyers who refused to believe industry simply won't come to a state where all injury cases are handled before a circuit court and jury. Arkansas and Mississippi were, I believe, the last two states in the nation finally set up a Workmen's Compensation Commission.

With this bit of history behind us, then, take note of some of the bills that have been introduced in the

60th General Assembly: H. B. 211 and S. B. 137 — To increase death benefits from \$8,000 to \$15,000, and weekly benefits from \$25 to \$40. The national average for death benefits under workmen's compensation is only \$6,000.

H. B. 134 and S. B. 79 -Attorneys who appear in workmen's compensation cases are now paid weekly, along with the injured party. That way, the injured party is always vers and his five children. sure of having his counsel around. The casualties included five in when he needs him. But these new jured persons. bills would require that the lawyer Police said an oil heater overbe paid off immediately in a lump flowed in one of the eight apartthe injured party to hire a second a. m.

attorney if he needed further aid.

The tragedy numbed Amster-education;

H. B. 182 — This is perhaps the dam's 32,500 residents, already WHEREA emmate workmen's compensation Last Saturday, the Gigelow-Sanas such, sending injury cases to circuit court — as in the old days. The minute news got out that such a bill had become law in Arkansas we could kiss goodby to any chance of attracting new industrial of a stracting new industrial to the last of the discretion is the better of valor." said Moses, who has led a fight against the measthrow approximately 1,650 out of grams, and

# How the 1955 Mercury makes sense out of high horsepower

**Draws Praise** 

NEW 1955 MERCURY PUTS HIGH HORSEPOWER TO WORK AT NORMAL DRIVING SPEEDS WITH NEW SUPER-TORQUE V-8 ENGINE, DUAL EXHAUST, 4-BARREL CARBURETOR

Mercury gives you high horsepower you can use in all performance ranges—not just brag about.

More important than high horsepower alone is pickup, passing, hill-climbing power-more power for your everyday driving. Everything about Mercury's new and ad-

vanced super-torque V-8 engine is designed to give you more usable power with super pickup in every speed range.

It's a short-stroke, low-friction design, with high-turbulence combustion chambers, fullvacuum automatic spark control-all specially engineered to squeeze more power out of every drop of gas.

And there are Mercury exclusives like: 1. A 4-barrel vacuum-operated carburetor for instant response, Only Mercury in its field

offers it as standard equipment on every model. 2. A dual-exhaust system on all Montclairs and Montereys to cut power loss, and add

more efficiency and economy. Only Mercury in its price class has it as standard equipment. 3. High-compression spark plugs-a revolutionary new design-for peak performance at all speeds without overheating or fouling. Only Mercury has them in its field.

They all add up to a new kind of high-horsepower performance by Mercury—the car that's always used V-8 engines-built over 2,000,000 of them. We invite you to try the new 198hp Montclairs, the 188-hp Montereys and Customs. Just stop in at our showrooms.

# How the 1955 Mercury makes sense out of high horsepower

**Draws Praise** 

NEW 1955 MERCURY PUTS HIGH HORSEPOWER TO WORK AT NORMAL DRIVING SPEEDS WITH NEW SUPER-TORQUE V-8 ENGINE, DUAL EXHAUST, 4-BARREL CARBURETOR

Mercury gives you high horsepower you can use in all performance ranges—not just brag about.

More important than high horsepower alone is pickup, passing, hill-climbing power-more power for your everyday driving. Everything about Mercury's new and ad-

vanced super-torque V-8 engine is designed to give you more usable power with super pickup in every speed range.

It's a short-stroke, low-friction design, with high-turbulence combustion chambers, fullvacuum automatic spark control-all specially engineered to squeeze more power out of every drop of gas.

And there are Mercury exclusives like: 1. A 4-barrel vacuum-operated carburetor for instant response, Only Mercury in its field

offers it as standard equipment on every model. 2. A dual-exhaust system on all Montclairs and Montereys to cut power loss, and add

more efficiency and economy. Only Mercury in its price class has it as standard equipment. 3. High-compression spark plugs-a revolutionary new design-for peak performance at all speeds without overheating or fouling. Only Mercury has them in its field.

They all add up to a new kind of high-horsepower performance by Mercury—the car that's always used V-8 engines-built over 2,000,000 of them. We invite you to try the new 198hp Montclairs, the 188-hp Montereys and Customs. Just stop in at our showrooms.

# How the 1955 Mercury makes sense out of high horsepower

**Draws Praise** 

NEW 1955 MERCURY PUTS HIGH HORSEPOWER TO WORK AT NORMAL DRIVING SPEEDS WITH NEW SUPER-TORQUE V-8 ENGINE, DUAL EXHAUST, 4-BARREL CARBURETOR

Mercury gives you high horsepower you can use in all performance ranges—not just brag about.

More important than high horsepower alone is pickup, passing, hill-climbing power-more power for your everyday driving. Everything about Mercury's new and ad-

vanced super-torque V-8 engine is designed to give you more usable power with super pickup in every speed range.

It's a short-stroke, low-friction design, with high-turbulence combustion chambers, fullvacuum automatic spark control-all specially engineered to squeeze more power out of every drop of gas.

And there are Mercury exclusives like: 1. A 4-barrel vacuum-operated carburetor for instant response, Only Mercury in its field

offers it as standard equipment on every model. 2. A dual-exhaust system on all Montclairs and Montereys to cut power loss, and add

more efficiency and economy. Only Mercury in its price class has it as standard equipment. 3. High-compression spark plugs-a revolutionary new design-for peak performance at all speeds without overheating or fouling. Only Mercury has them in its field.

They all add up to a new kind of high-horsepower performance by Mercury—the car that's always used V-8 engines-built over 2,000,000 of them. We invite you to try the new 198hp Montclairs, the 188-hp Montereys and Customs. Just stop in at our showrooms.

Tuesday, February 1, 1955 One Network Without

By WAYNE OLIVER NEW YORK (A) -There are fr nationwide networks connected by wire circuits, but there's also fifth linked only by magnetic tap that's starting its sixth year. has no commercials and rothing t sell except education. It's the 67-station network of the National Assn. of Educational Broadcasters, members of which noncommercial educational radio stations operated mostly by iniversities and local school The best programs of each are recorded on magnetic tape and distributed to all the others. Th association also obtains a number of cultural programs from ou side sources.

The educational network distributes recordings to the stations individually, to broadcast when they like, instead of transmitting them to all simultaneously by wire haokun. The association tself has been in existance 1925 but wasn't until 1949 that the network was organized at a meeting at the University of Illinois, Seymour Sic gel, director of New York's noncommercial municipal station ident, and sparked the new ne

work in its infant days. Operations were started Jan. 2 1950, with only a single tape f each program. The tape was r layed from one station to anothe until it had made the circuit, after which it was returned to WNYC so it could be crased and another program recorded on the reel. With membership fees grants rom the W. K. Kellogg and Ford Foundations and others. fledgling network grew at a fapace and was able to buy tape duplicators so several copies at a time could be made of programs It now has headquarters at the University of Illinois where at acceptance committee auditions programs from members and de ides which merlt network distri-

## Commonwealth Leaders Talk Over Formosa

SEYMOUR TOPPING ONDON W-The prime miniss of the British Commonwealtr in London today amid grave f fears and pivnged straight into alks aimed at helping to end the formosa fighting.
The China coast crisis toppe agenda at the opening of the Day parley of eight prime min-Hers and one deputy premier.

Other topics were shoved into
the background as Prime Minister Churchill worked to muster the infind today's move in the United ions Security Council for t China cease-fire. In hand for the closed-door meelings with Churchill at his of-ffeial 10 Downing St. residence Prime Ministers Nehru of India; Lius St. Laurent, Canada; Robert G. Menzies, Australia, Sydney Hiland , New Zealand; Mohammed Ali, Pakistan; Sir Jehn Kote--70,000,000 people f lawala, Ceylon; Sir Godfrey Huggins; New Central African Federa-tion of Rhodesia and Nyasaland; Deputy Fremier Charles R. Swart, South Africa.
The Premiers' first plenary

> WANTED-MORE HIGHWAYS-Illustrated above are some of the principal reasons why Presient Eisenhower is asking Congress to approve a tremendous expansion of the nation's road ilding program. Basis of his plea is the recent report of his highway advisory committee, headed Lucius D. Clay. The report recommends a 10-year, \$101 billion road-building program. This is a \$54 billion increase over the present program. A grim new facet of the highway picture s the necessity for adequate highways to evacuate millions of people from target areas plus sufficient roads for speeding military men and supplies to threatened areas. "No urban area in the country today has highway facilities equal to this task." says the report.
